

Perma-Lock Standing Seam

Concealed Fastener Metal Roofing Systems

- 1" tall architectural standing seam in timeless copper or durable pre-painted steel
- Time tested: millions of feet of Perma-Lock in place in the Sierras since 1993
- Unique one-piece "no-clip" design
- Slotted strip for fasteners allows expansion and contraction
- Sleek, distinctive, fastener free attachment
- Low maintenance: no more leaks from loose or broken screws
- Double-thick interlock snaps together for a durable, weather-tight seal
- Easy installation, lower in-place cost
- Metro Dade County, Florida wind tested
- Three pan profiles available: our classic *Flat Rib*, the new *Striated*, and *Smooth*
- Exclusive ultra low-gloss finishes with up to **30-year** warranties
- High performance full strength Kynar-500 ceramic pigment paints
- Firesafe: Class "A" fire rated
- Custom colors, gauges, widths, and finishes available
- Wind resistant; rain, ice, and snow shedding
- Environmentally friendly: 60% of our roofing is from recycled steel, and our roofing is 100% recyclable
- Complete matching trim component and accessory packages are available
- *Installation and Detail Guide* and *Ordering Guide* available
